PINCHOT'S DISMISSAL MAY RAISE RUMPUS

WASHINGTON, January 7.—Ballinger has drawn first blood in his battle with Gifford Pinchot, head of the Division of Forestry of the Department of Agriculture, in being the direct cause of the dismissal of that official from public office.

Pinchot's letter to Senator Dooliver, making grave charges against Ballinger, and which was openly read in the Senate, brought about the resignation of President Taft.

With the official decapitation of Pinchot go the heads of Price and Shaw, two officials under the jurisdiction of Pinchot.

It is believed that Congress will be severely agitated over this proceeding—as the deposed forestry official has a big following throughout the country.

Pinchot stood high in the esteem of President Roosevelt, and it is thought that somewhat strained relations may come to the surface between Taft and Roosevelt over the dismissal of Pinchot.

REVOLUTIONARY LEADER DROWNED

BLUEFIELD, Pa., Jan. 7.—General Diaz of the revolutionary army was drowned today while on his way to Managua. Diaz was going as the representative of the revolutionists to discuss terms for a possible treaty of peace between the forces of Estrada and the army of the government.

LATHAM GOES UP HIGH

MOURMELON, Jan. 7.—Latham eclipsed all records for aerial navigation today, when he drove his aeroplane through space at the remarkable elevation of 3600 feet.

CARDINAL SATOLLI DEAD

ROME, Jan. 7.—His Eminence Cardinal Satolli died here today after a lingering illness.

IN BUSINESS CIRCLES

This has been a very quiet week in business circles, characteristic of the first week of every new year. Bankers have just balanced up for the old year and are straightening away to adjust themselves to the prospective broader fields of operation for the future.

Mercantile houses are cleaning up after the holiday rush, taking account of stock and getting in shape for the early renewal of active trading. Real estate dealers are affected by the holiday lull. Men in the stock market are waiting for the price of sugar to go down and give them an opportunity to pick up some of the best stocks at more attractive prices. Brokers are waiting for the same state of affairs to brace up business.

That is about all there is to it in the last seven days. When the stock exchange resumed its sessions after the holiday recess, it was found that comparatively little trading had been done in the interval, but prices as a rule had been well maintained. Hawaiian Commercial advanced on the increase of the regular dividend to twenty-five cents a share. Waiatua held strong at 120. Oahu remained in the vicinity of 32.75 and Ewa at 32.50. Pioneer slumped to 196 on a sale of a few shares but has since recovered. Five hundred shares of Paauhau were sold at a very good figure and quite a block of Hutchinson changed hands at 17. Olan dropped to 3.75 and has sold quite freely at that price. McBryde strengthened very much and is now being sought freely at 6 1-8. Both these cheaper stocks will go higher. Olan will stiffen as the plans for the disposal of bonds develop, and McBryde has gained new force under the aggressive administration of Alexander & Baldwin as well as the placing of the \$500,000 worth of bonds of the Kaula Railway Company that were handled by the Hawaiian Trust Company.

As the week has progressed very few sales have been made at the seasons of the Stock Exchange. Nearly all the trading has been between boards. Buying orders are not lacking but the demand is at figures that are not frequently found in the offerings on the board.

One of the brokers of the city when

A Good Investment

The Temporal Ranch Oil Co. with 600 acres oil land, flowing oil wells and all its reservoirs filled with high-grade oil in the Temporal district, Kern Co., Cal., will soon complete its three-mile gravity delivery pipe line.

This Oil Company is at present like a plantation with tons and tons of sugar on hand, ready to be shipped on the incoming steamer.

An able management, almost a square mile of proven oil land, cheap transportation of oil, high prices with steadily increasing demand for oil, will make this company an early dividend payer, and for that reason the stock of this Temporal Ranch Oil Co. is recommended as a GOOD INVESTMENT by the Lincoln Mortgage & Loan Co. of San Francisco.

Capitalization is \$1,000,000, divided into shares of \$1.00 each. I have a small block of them for sale at 30c while they last. Secure them NOW.

P. E. R. STRAUCH,
74 S. King St.

A line of business not usually noted was heard from this week when the Dreier estate authorized the expenditure of over twenty thousand dollars in the improvement and expansion of the Oahu Ice & Electric Company. This company, despite the sharp competition, has been doing a good business as is proved by the plans for expansion. As there are no reports of distress on the part of the other ice-making concerns this is another indication

asked if the banks were liberal in their loans, responded that the larger share of his business is now being done on a cash basis. This is an interesting indication of the general prosperity of the community.

Dividend increases announced have been the Hawaiian Sugar Company's advance of the regular from thirty to forty cents a share and the increase of the Hawaiian Commercial. Hawaiian Agricultural announces its monthly dividend for the year as \$1 per share. When one recalls how near disaster this plantation was only a few years ago, the present condition is a very impressive lesson of what science, plenty of water and good prices will do for the sugar industry of the islands. Honolulu is also to pay \$1 a share.

Speaking of Hawaiian Agricultural recalls the brief visit of Ed Pollitz. He had some idea of placing the agency of the Hutchinson plantation through a sale of the control. Seven inches of rain that have fallen in the Kan district during the last six weeks caused Pollitz to be quite indifferent about the agency, or the sale of the control—he is willing to hold the control himself.

Mr. Pollitz has figures at his tongue's end to show that the average price this year for raw sugar will not go below 3.99. This he says in his conservative mood. He has no idea that the average will be so low as that. Five cents would seem by no means an impossibility if the price of beets continues to rise, and an average above four cents marks the season of 1910! Mr. Pollitz leaves for San Francisco on the China.

Statistics given in the latest sugar circulars from the mainland show a status most favorable to higher prices. Visible supplies of raw sugar are lower than for many years, and the continued high price for beet sugars and raws confirms the forecast of the statisticians.

Cuban sugars are now coming rapidly into the market, and the Cuban season will reach its height the middle of February. The disparity between the New York and the London quotations is now nearly three quarters of a cent per pound, a most remarkable showing and if this continues it may be that the Cubans will ship some of the sugars of their nearly two million-ton crop to the European market.

The monthly summary of the Stock Exchange shows that McBryde led the list in the number of shares sold during the month of December with 4520 Olan came next with 3923. Ewa third with 2974 and Honokaa fourth with 1263. Of those below the thousand mark Oahu Sugar Co. shows that 891 shares changed hands in the month. Hawaiian Commercial 860, Waiatua 775 and Pioneer Mill 418. This demonstrates that the cheaper stocks are being very generally dealt in and are more attractive to the buying public.

A line of business not usually noted was heard from this week when the Dreier estate authorized the expenditure of over twenty thousand dollars in the improvement and expansion of the Oahu Ice & Electric Company. This company, despite the sharp competition, has been doing a good business as is proved by the plans for expansion. As there are no reports of distress on the part of the other ice-making concerns this is another indication

Wunderhose

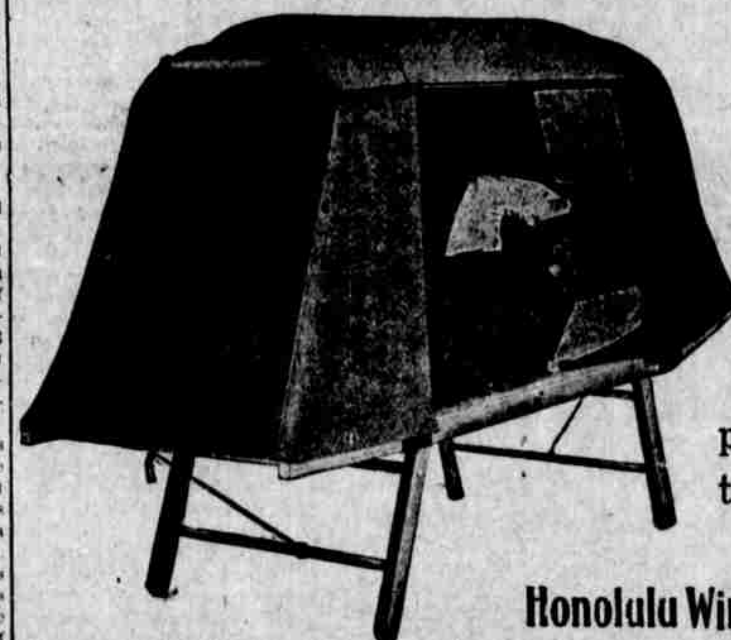

Another Pair if Yours Don't Wear

THAT'S what happens if Wunderhose should fail. They are warranted to wear three months without darning. They're made of the softest, most elastic wearable yarn ever woven into socks. The combined strength of Wunderhose thread is hard to overcome by even strenuous wear. But to withstand surprises or unexpected attacks of the enemy, general wear, reinforcements of linen thread are woven in the heel and toe. They come in light weights in all the new shades and black and tan.

cation of the growth of Honolulu and increase demands for household necessities.

Commission Man Fred Waldron reports another advance in the price of flour during the week. In the last two months flour has advanced in price from \$1.40 to \$1.60 per barrel.

Either next week or the week following Davies & Co. will begin the sale of the Lewis & Co. stock of groceries and household hardware. The stock is a large one and will probably go at very reasonable prices.

Washington dispatches announced Friday that Secretary von L. Meyer has asked for an emergency appropriation of three hundred thousand dollars to guarantee the dredging work at Pearl Harbor in case there should be a deficiency in the regular appropriation for the work. This means that the Government is very much in earnest about the establishment of the naval base on this island, and intends that nothing shall be allowed to delay it.

In a comparatively few weeks contracts must be let for the naval station buildings and marine barracks as well as the construction of the new post at Lohienu.

These are new reminders to the people of Honolulu that their town and its surroundings will grow by leaps and bounds regardless of what the price of sugar may be.

lish a line of steamers to take the bananas grown in the islands. If this business is handled right there ought to be a future in it for the small planters of the islands, provided the buyers will do what Ford thinks they will do—pay cash for the bunches delivered on the dock.

The annual meeting of the Merchants' Association will be held on the 14th inst. Fred Waldron can have the presidency of the Association for another year if he wants it. Should he refuse, Walter Dillingham will probably be advanced to the head of the organization.

SOCIAL DANCE AT ODD FELLOWS HALL

A social dance will be given this evening on the roof garden of the Odd Fellows Hall by Mrs. Sibyl Reid, the talented dancer and teacher. Mrs. Reid is the dancer who has been giving a series of dances at the Bonita Theater. The dance this evening is given in honor of Mrs. Reid's dancing class and members of the class and many of their friends will be in attendance. Admission to the dance is \$1 for gentlemen and ladies.

KAUAI ENGAGEMENT.

Mr. and Mrs. William Hyde Rice announce the engagement of their daughter, Emily Dorathia, to Dr. Leo Lloyd Sexton.

A Pennsylvanian has been granted a patent on an electrical rat trap which resembles a rather flat belt. When a rat climbs upon it to reach the bait it completes a fatal circuit.

BAD ASSAULT CASE AT EWA MILL

Deputy Sheriff Fernandez of Ewa brought a prisoner named Vicente Rojas into the police station this morning. The man is charged with a brutal assault on a man named Mifacio Rodas.

The affair took place yesterday, and the accused is alleged to have hit Rodas in the face, after adjusting a murderous looking "knuckle duster" on his hand. The unfortunate Rodas was knocked senseless, and was taken to the hospital, where he did not recover consciousness for some hours.

The instrument with which the man was laid out is made of steel, and had the letters U. S. A. printed on it. The police consider that Rodas had a narrow escape from death, as he was hit near the temple. The prisoner will appear in court on Monday morning, and if convicted will get a stiff sentence.

The Daughters of the American Revolution will meet with Mrs. W. R. Castle on Monday at 3:30 p. m. January 19. The subject of the paper by Miss Atherton will be "A Revolutionary Character Sketch." Instead of the subject announced on the notices sent out last week. An interesting afternoon may be expected and members are at liberty to invite friends who would be likely to enjoy attending. Visiting members from other chapters are cordially invited.
